Perspectives on Social Sustainability and Interior Architecture

Dianne Smith 2014-04-30 This book argues that interior architects have a responsibility to practice their profession in collaborative ways that address the needs of communities and of to be the agents of social justice and cultural heritage. The book is divided into three sections, based on three pivotal themes — community engagement, social justice and cultural heritage. Each section has chapters that put forward the principles of these themes, leading into a variety of fascinating case studies that illustrate how socially sustainable design is implemented in diverse communities across the world. The second section includes four concise case studies of community housing issues, including remote-area indigenous housing and housing for the homeless. The third section offers two extensively researched essays on design and cultural heritage — a case study of the development of a redundant industrial site and a historical study of gendered domestic interiors. The book appeals to a wider audience than the design community alone and challenges mainstream interior design/interior architecture practitioners nationally and internationally to take a leading role in the field of socially

responsible design. The issues raised by the authors are relevant for individuals, communities, government and non-government organisations, professionals and students. “In the twenty-first century we seem to have entered into a new world of knowledge discovery, where many of the most exciting insights come not from the authority of a traditional discipline, but from the dialogue that happens at the hubs and intersections of thought — the arenas where different disciplines and approaches, different schools and habits of thinking, come together to collaborate and contend. This collection is a good example of this, and I hope the book will be widely read and its lessons learned and applied.” Tim Costello, Officer of the Order of Australia, Chief Executive, World Vision Australia.

Women’s Activism and “Second Wave” Feminism Barbara Molony 2017-02-09 This book is open access and available on www.bloomsburycollections.com. It is funded by Knowledge Unlatched. Women's Activism and "Second Wave" Feminism situates late 20th-century feminisms within a global framework of women's activism. Its chapters, written by leading international scholars, demonstrate how issues of heterogeneity, transnationalism, and intersectionality have transformed

understandings of historical feminism. It is no longer possible to imagine that feminism has ever fostered an unproblematic sisterhood among women blind to race, ethnicity, class, sexuality, nationality and citizenship status. The chapters in this collection modify the "wave" metaphor in some cases and in others re-periodize it. By studying individual movements, they collectively address several themes that advance our understandings of the history of feminism, such as the rejection of "hegemonic" feminism by marginalized feminist groups, transnational linkages among women's organizations, transnational flows of ideas and transnational migration. By analyzing practical activism, the chapters in this volume produce new ways of theorizing feminism and new historical perspectives about the activist locations from which feminist politics emerged. Including histories of feminisms in the United States, Canada, South Africa, India, France, Russia, Japan, Korea, Poland and Chile, *Women's Activism and "Second Wave" Feminism* provides a truly global re-appraisal of women's movements in the late 20th century.

All the Wrong Moves Sasha Chapin 2019-08-13 An enthralling journey into the world of chess--a story of heartbreak, obsession, failure, and the hunger for greatness Sasha Chapin is a victim of chess. Like countless amateurs before him--Albert Einstein, Humphrey Bogart, Marcel Duchamp--the game has consumed his life and his mind. First captivated by it as a member of his high school chess club, his passion was rekindled during an accidental encounter with chess hustlers on the streets of Kathmandu. In its aftermath, he forgot how to care about anything else. He played at all hours, for weeks at a time. Like a spurned lover, he tried to move on, but he found the game more seductive the more he resisted it. And so, he thought, if he can't defeat his obsession, he had to succumb to it. *All the Wrong Moves* traces Chapin's rollicking two-year journey around the globe in search of glory. Along the way, he chronicles the highs and lows of his fixation, driven on this quest by lust, terror, and the elusive possibility of victory. Stylish, inventive, and laugh-out-loud funny, *All the Wrong Moves* is a celebration of the purity, violence, and beauty of the game.

My Brother in Arms: The Exceptional Life of Mark Andrew Forester, United States Air Force Combat Controller Thad Forester

2013-10-11 On September 29, 2010 my brother, Mark Forester, was KIA while fighting terrorists in Uruzgan Province, Afghanistan. His heroic legacy of being shot down while preparing to rescue a fallen teammate began long before this tragic day. An Apache aviator said of Mark's final battle: ...I have never witnessed such an act of heroism in my three years of fighting in combat. I have over 2,700 hours total time with 1,500 hours of combat time in both Iraq and Afghanistan...JAG 28 continued to advance on the enemy while taking intense enemy fire, and continuously fired his weapon in an attempt to get to his fallen teammate and destroy

the enemy. Mark chose to enlist in the Air Force as a Special Operations Combat Controller after he received his Bachelor's degree from The University of Alabama. Because of his above average grades and near-photographic memory, his Business Finance degree would have done him well. But, he felt a higher calling; one that put him between us and the enemies bent on our destruction. Mark is the youngest of five children. He is my younger brother and I write from that viewpoint. We were the youngest in the family and he was my best friend. There are few things in life that I can speak of with total confidence and conviction-my little brother is one of them. Mark's military career was only a small part of his life, so this book doesn't highlight just the last three years of his 29 years on earth, but I've tried to capture his entire life. From his family environment, to his spiritual beliefs, to his trials, and then to his physical talents; these all prepared him to face his most vicious battles in one of the most violent areas of the world. Since his death, our eyes and hearts have been opened to multiple examples of selflessness and patriotism by meeting his teammates and leaders in the military. We have witnessed first-hand their ability to turn off their stern, professional personae and turn on compassion, love, support and acceptance. I feel a strong desire to Honor our Heroes. This book highlights one hero, SrA Mark A. Forester, and also helps recognize many other men and women who volunteer to fight for our freedom. My Brother in Arms is not a memorial in print, but a biography for continuing Mark's legacy of perseverance, determination and accomplishing our missions on earth. We each have different missions, but what's important is for each of us to recognize ours and work to accomplish it. In the end, don't we all want to go out while moving forward?

The NaMo Story: A Political Life Kingshuk Nag 2013-03-01 One of

the truly enigmatic personalities on the contemporary Indian political canvas, Narendra Damodardas Modi is difficult to ignore. From his humble beginnings as a RSS pracharak to his rise in the Hindutva ranks, and from being Bharatiya Janata Party's master planner to one of the its most popular and controversial state chief ministers, Modi's mantra of change and development is gradually finding many takers. Though he evokes vastly different reactions among the citizens for his alleged role during the Godhra aftermath, what is absolutely clear is that he indeed is racing towards the centre stage, making the 2014 General Elections look more like a Presidential system - where, you either vote for him or against him. And that, as they say, is the Modi effect. Kingshuk Nag paints the most vivid portrait of the extraordinary politician who is poised to take on a new role in the coming years.

Teratologies Jackie Stacey 2013-07-23 Stories of cancer are full of monster and marvels; the monstrousness of the disease and the treatments, the marvels of the cures and the saved lives. Still one of the most dreaded diseases to haunt our imaginations, cancer is more than an illness - it is a cultural phenomenon. People who have cancer are bombarded with competing explanations of their conditions: it is genetically inherited; it is environmentally produced; it is the result of their personality. *Teratologies - A Cultural Study of Cancer* investigates how this disease is perceived, experienced and theorised in contemporary society. It explores changing beliefs about the causes of, and the cures for, cancer in both biomedicine and its increasingly popular alternative counterparts. Analysing conventional and alternative medical accounts, self-help manuals and patients' personal stories, Jackie Stacey takes a critical look at the place of heroes, metaphors, the self and the body in these competing bids to produce the authoritative definition of the meaning of cancer today. Interspersed with these detailed textual investigations are discussions of broader issues such as the feminist debates about the history of science, the place of consumer culture in health

practices and the status of patients and of health professionals in postmodern society. Combining autobiographical narratives with contemporary theoretical debates, the author carves out a specifically feminist analysis of the cultural dimensions of cancer. She brings accounts of her own illness under the critical lens of academic scrutiny and situates these personal stories within a discussion of contemporary cultural change.

The Mask of Masculinity Lewis Howes 2017-10-31 At 30 years old, Lewis Howes was outwardly thriving but unfulfilled inside. He was a successful athlete and businessman, achieving goals beyond his wildest dreams, but he felt empty, angry, frustrated, and always chasing something that was never enough. His whole identity had been built on misguided beliefs about what "masculinity" was. Howes began a personal journey to find inner peace and to uncover the many masks that men - young and old - wear. In *The Mask of Masculinity*, Howes exposes the ultimate emptiness of the Material Mask, the man who chases wealth above all things; the cowering vulnerability that hides behind the Joker and Stoic Masks of men who never show real emotion; and the destructiveness of the Invincible and Aggressive Masks worn by men who take insane risks or can never back down from a fight. He teaches men how to break through the walls that hold them back and shows women how they can better understand the men in their lives. It's not easy, but if you want to love, be loved and live a great life, then it's an odyssey of self-discovery that all modern men must make. This book is a must-read for every man - and for every woman who loves a man.

LIFE 50 Years of James Bond The Editors of LIFE Books 2012-10-02 Fifty years (and five billion dollars in ticket sales) ago, the dashing Scottish actor Sean Connery declared suavely that he was "Bond, James Bond." Thus began a cinematic series unlike any other. In November 2012, *Skyfall*, the 23rd movie in what is seen as the authorized line of Bond films, will be released, with Daniel Craig (the sixth Bond) again in the lead role. The world will once

more stream to the theaters for another dose of Bond. LIFE was on the scene in the swinging '60s when James Bond became a cultural icon (in fact, when we put the gold-painted actress Shirley Eaton on the cover in 1964, we helped him along), and now LIFE tells the whole story in this commemorative book. Ian Fleming, a high-ranking officer in British Naval Intelligence of World War II, dreamt up his MI6 spy, code number 007, in 1953, and a decade later, with Dr. No, From Russia With Love and then the smash Goldfinger, saw his creation take on a life entirely his own. All the fun of Bond is here: The movies; the reminiscences by the stars; the LIFE photo shoots; the knockoffs and spoofs ("The Man from U.N.C.L.E.;" "Get Smart;" "I Spy;" the first Casino Royale); the artifacts (a model of Bond's Aston Martin DB5 was one of the best-selling toy of 1965); the trivia and inside information on M, Q and Moneypenny-anything a Bond fan would want, packed into one book and then shaken, not stirred. James Bond was, back in the day, one of those cultural phenomena tailor-made for LIFE: It was bright and colorful and vibrant. Today, it still is. Happy birthday, and welcome back, Commander Bond.

Differentiation and Diversity in the Primary School Eve Bearne 2006-05-09 Differentiation is a key part of effective teaching; structuring learning experiences to suit the needs of the individual child plays a major part in the quality of the education that child receives. However, even experienced teachers can often struggle to achieve this ideal when considering the needs of a class, which is likely to include pupils across the whole ability range, from students with learning difficulties through to gifted children. Written by practising teachers this collection: * examines the definitions and scope of differentiation * looks at the structuring and management of learning activities within the curriculum areas of key stages 1 and 2 * shows how teachers can provide equal access to the curriculum for all children, whilst also meeting government requirements * discusses issues of assessment * describes how schools can construct a whole school policy and

approach for differentiation. Using case studies and examples, this book will lead teachers to reflect on their current practice, whilst also containing practical advice which will enable them to improve.

How Not to Build a Boat Jill Dickin Schinas 2013-03-01 When their old GRP yacht was devastated by a Southern Ocean storm, Jill Schinas and her husband, Nick, resolved to build something stronger. Gaily, - and without having researched the matter to the least degree -they threw themselves into the work of designing and constructing the ultimate, ocean-proof, eco-friendly, dream cruising yacht. On their side they had a wealth of sailing experience, which provided a perfect knowledge of what was required, but their only other weapons were irrepressible enthusiasm and the mindset which enables a man to build a radio

from a potato or a mast from a lamppost. Had this been a business enterprise no bank would ever have lent the capital, for ranged against the dreamers was a whole battery of forces any one of which would have deterred more realistic people. For a start, neither Jill or Nick had any experience with a welder - and yet they were proposing to build a steel boat. Secondly, they seemed only to have enough money to buy a couple of masts and the sails. Worst of all, they had two kids and a new baby in tow - and no one with a young family ought to attempt anything more ambitious than the washing up. Regardless of these drawbacks, Nick and Jill went ahead. "It'll only take a year and a half," said he, confidently. Fifteen years down the line, Mollymawk is afloat and the family have cruised all over the Atlantic; but the boat is still not finished. This is the tale of what went wrong and what went right. Packed full of advice about such things as ocean-worthy design and sail plans, it will also tell you how to operate a cutting torch, how to avoid a leaky stern-gland, how to pour your own rigging sockets, how to handle a ferocious gander, how to sandblast, how to weld in mid-Atlantic, how to amuse three young children in a cabin space the size of a phone booth... and much, much more besides.

Digital Humanities in the Library Arianne Hartsell-Gundy 2015-04 In the past decade there has been an intense growth in the number of library publishing services supporting faculty and students. Unified by a commitment to both access and service, library publishing programs have grown from an early focus on backlist digitization to encompass publication of student works, textbooks, research data, as well as books and journals. This growing engagement with publishing is a natural extension of the

academic library's commitment to support the creation of and access to scholarship.

A Fleet Street in Every Town Andrew Hobbs 2018-12-13 At the heart of Victorian culture was the local weekly newspaper. More popular than books, more widely read than the London papers, the local press was a national phenomenon. This book redraws the Victorian cultural map, shifting our focus away from one centre, London, and towards the many centres of the provinces. It offers a new paradigm in which place, and a sense of place, are vital to the histories of the newspaper, reading and publishing. Hobbs offers new perspectives on the nineteenth century from an enormous yet neglected body of literature: the hundreds of local newspapers published and read across England. He reveals the people, processes and networks behind the publishing, maintaining a unique focus on readers and what they did with the local paper as individuals, families and communities. Case studies and an unusual mix of quantitative and qualitative evidence show that the vast majority of readers preferred the local paper, because it was about them and the places they loved. A Fleet Street in Every Town positions the local paper at the centre of debates on Victorian newspapers, periodicals, reading and publishing. It reorientates our view of the Victorian press away from metropolitan high culture and parliamentary politics, and towards the places where most people lived, loved and read. This is an essential book for anybody interested in nineteenth-century print culture, journalism and reading.

Indigenous Heritage Michelle Whitford 2021-07-22 History shows that travellers sought to experience the unfamiliar and exotic cultures and traditions of Indigenous peoples, with early examples of Indigenous tourism in the United States, Canada, Scandinavia, Australia, New Zealand and countries throughout Asia and Latin America. Similarly, contemporary travellers demonstrate a desire to seek out opportunities to experience Indigenous peoples and their cultures. Thus, we are witnessing

worldwide growth in the awareness of, and interest in, Indigenous cultures, traditions, histories and knowledges. Engagement in the tourism sector is regularly advocated for Indigenous peoples because of the socio-economic opportunities it provides; however, there are a range of cultural benefits including the maintenance, rejuvenation and/or preservation of Indigenous cultures, knowledges and traditions for Indigenous peoples who choose tourism as a vehicle to showcase their cultures. Consequently, tourism is regularly acknowledged as a means for facilitating the sustainability of tangible and intangible Indigenous cultural heritage including languages, stories, art, dance, rituals and customs. Importantly, however, the history of Indigenous peoples' engagement in tourism has provided a range of examples of the threats to Indigenous culture that can accrue as a result of tourism (i.e., cultural degradation, commercialisation and commodification, authenticity and identity, among others). This book presents an exploration of the intersection between tourism and Indigenous culture. The chapters in this book were originally published as a special issue of the Journal of Heritage Tourism.

Nonparametric Statistical Inference, Fifth Edition Jean Dickinson Gibbons 2010-07-26 Proven Material for a Course on the Introduction to the Theory and/or on the Applications of Classical Nonparametric Methods Since its first publication in 1971, Nonparametric Statistical Inference has been widely regarded as the source for learning about nonparametric statistics. The fifth edition carries on this tradition while thoroughly revising at least 50 percent of the material. New to the Fifth Edition Updated and revised contents based on recent journal articles in the literature A new section in the chapter on goodness-of-fit tests A new chapter that offers practical guidance on how to choose among the various nonparametric procedures covered Additional problems and examples Improved computer figures This classic, best-selling

statistics book continues to cover the most commonly used nonparametric procedures. The authors carefully state the assumptions, develop the theory behind the procedures, and illustrate the techniques using realistic research examples from the social, behavioral, and life sciences. For most procedures, they present the tests of hypotheses, confidence interval estimation, sample size determination, power, and comparisons of other relevant procedures. The text also gives examples of computer applications based on Minitab, SAS, and StatXact and compares these examples with corresponding hand calculations. The appendix includes a collection of tables required for solving the data-oriented problems. Nonparametric Statistical Inference, Fifth Edition provides in-depth yet accessible coverage of the theory and methods of nonparametric statistical inference procedures. It takes a practical approach that draws on scores of examples and problems and minimizes the theorem-proof format. Jean Dickinson Gibbons was recently interviewed regarding her generous pledge to Virginia Tech.
